**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 4,

The prior art of record does not teach or fairly suggest a communication confirming table for storing each reception time of communication frame received through synchronous network, corresponding to each of reception lines, and a means for deciding occurrence of failure on reception line corresponding to reception time when a difference between a reception time stored in table and a present time at predetermined period exceeds a predetermined value, and transmitting instructions of switching reception line to reception line selecting means.

3. Regarding claims 2 and 5,

The prior art of record does not teach or fairly suggest a means for transmitting contents of terminal identifying and learning table to all transmission apparatuses connected to synchronous network using terminal identifying and informing Frame, and a transmission apparatus identifying and learning table for storing terminal identifying information of the contents of terminal identifying and informing frame received from synchronous network, corresponding to sending side transmission apparatus of terminal identifying and informing frame, and for learning terminal identifying information connected to each transmission apparatus.

Art Unit: 2662

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
